

2018 “Mysterious” Pinot Noir

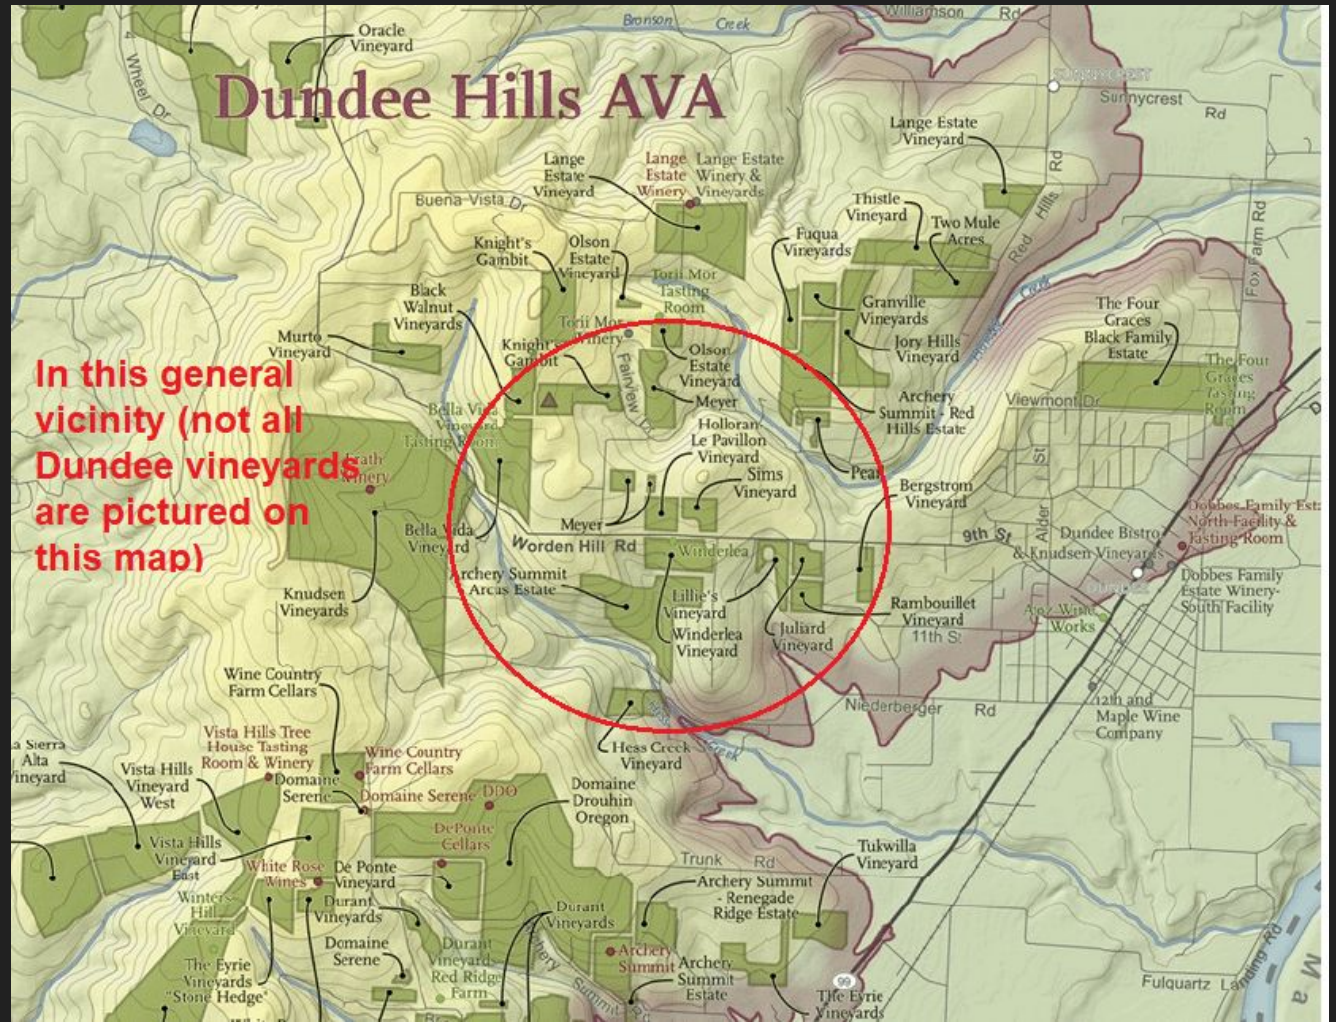

Mysterious Vineyard relative (generally) to the other vineyards from who we currently purchase fruit

# Dundee Hills AVA

This site is located in the bowl off of Worden Hill Rd. where it lies in close proximity to vineyards such as Maresh, Powell Hill, Weber, Clos Electrique, Le Pavillon and others.

**In this general vicinity (not all Dundee vineyards are pictured on this map)**

# 2018 “Mysterious” Pinot Noir

SOIL TYPE: Jory (volcanic)

YEAR PLANTED: 1990

CLONAL MATERIAL: Pommard

PICKING DATE: 9/24/2018

TONS/ACRE: 3.25

VINIFICATION: 8 of the 15 barrels come from 100% whole cluster fermentations and 7 come from completely destemmed fermenters.

This wine wants to be perfect. It is youthful and jumpy right now. As of writing this, there is so much material rolling around with fruit and tannin. Its characteristics are sort of all over the place. Not unusual for great wines to begin at stages like this. This has power, concentration, dry extract, subtle spice undertones and enormous length. This is not necessarily a powerhouse, but it has so much to it that it's impossible to doubt that there is profundity in this wine's future. Taste it now for all the incredible stuff going on, but get it because it will be great years down the road.
